Elizabeth, I appreciate your input and will work to correct my tendency toward over engagement with members of the public at meetings. It is not intended to be biased in any way. My basic style is grounded in collaboration, listening and solving problems with through understanding varied perspectives, I will work to temper my style and adhere to a more rule based approach to citizen engagement. Don't hesitate to call me on this style challenge re the SBAC. I will do my best to adhere to expected norms.

Have a great day!!

Penelope (Penny) Jordan
