Hi SBAC,

Just an FYI, *NESDEC* informed me they have revised the student enrollment forecast. I have attached the latest forecast which projects an 8.6% increase by 2033-34. They explained the revised forecast this way:

In early November 2023, the State of Maine released their birth data and there is an increase for Birth Year 2022 for your district, which has an impact on SY 2027-28 and beyond. The birth number increased from 59 to 74.

We have attached an updated enrollment projection report for you. Please do not hesitate to reach out to me if you have any questions.

Karen LeDuc

I also shared this update with Harriman for their planning purposes. [Reminder, no discussion by email.](#)

Thanks,

Chris
