Hi Jen,

We will gather the materials and I will let you know when they are ready for you to review. There are copying costs for all of the materials, so another option is to schedule a time to come in and review them.

Thanks,  
Chris

Dear Dr. Record,

On social media this weekend, Mary Ann Lynch described parents and school staff's firsthand experiences with the impacts of mold, lead in the classroom water, and vermin as "urban legends". Even after being provided with the attached publicly available mold report that resulted in disruptive class evacuations, parent concerns were further classified by Mary Ann Lynch as "myths".

For any and all information provided to Mary Ann Lynch in writing or verbally regarding any issues about our schools, please also include me in all releases of information.

Thank you very much for your transparency, your dedication, your hard work and for your inclusion of me in all FOAA requests by Mary Ann Lynch.

Sincerely,  
Jen
