Subject: support for Option E

Message Body:

Hi,

Thank you for all of your hard work. I would like to voice my support for option E which is the only fiscally responsible option of the 3 (although option G was my first choice). It doesn't make any sense to renovate without building any new schools. Renovations will cost almost as much and will not last very long compared with building new, not to mention the skyrocketing maintenance costs for the old buildings. I will not support or vote for any option that does not include at least one new school. Thank you again.
