Hi all - hope you get to take it a bit easy today!

I am pulling together a diagram of the walker/biker discussion we had last night so that Harriman can see where they come from now, and where they might be in the future as the town adds sidewalks, crosswalks, and improves pedestrian safety issues.

Question marks show where I am not sure how many students are walking, and what the issues are. I would be happy to zoom in to certain areas if there are important conditions that we need to communicate that are not legible in this view.

Please let me know what I am missing that should be added to round out this information.

Thank you!

CB
