Good evening,

I am a 10 year resident of cape elizabeth with 2 children in the school system. I am a pediatrician and my husband is a teacher. Please opt to invest wisely in the future of our town and our children.

Option E is the best long term investment. It will meaningfully move the needle on what is needed for our schools. It will minimize educational disruptions and money spent on temporary educational settings (money that therefore cannot actually get spent on the schools).

Help our kids learn in a safe space free of health hazards.

This investment benefits our property values and our population.

Please do not be dissuaded by those who simply want to kick this can down the road. That is what has gotten us into the situation to have so many needs to address.

Genevieve Whiting
