Dear SBAC,

I hope you will support Option E.

I appreciate all the work you have done to “educate” the community regarding the options for upgraded schools.

I support E because it is the fiscally responsible choice. The two alternatives will continue our decades-long policy of kicking the can down the road. In the long run, the community-at-large will have a better school and will save money if we do it right and do it now.

Thank you for considering my thoughts.
