I am writing in strong support of option E for our future schools. As a mom of two and Cape Elizabeth resident I am concerned that anything less than option E is not only a temporary solution to a much larger problem, but also is providing a subpar future for our kids.

This town has put off investing in its future generation long enough. If the town fails to appropriately provide for our children, then I fear Cape Elizabeth will become a destination town only. The only people who will live here will be those with their second homes here and it will be a shadow of how great it once was.

Thank you and please feel free to contact me if you have any questions or concerns.
