Thanks to you all for volunteering and including residents like me in this process. I'm a resident of Elizabeth Park and understand the challenges that a tax increase will pose to our limited family budget and others of modest incomes and I am strongly in support of option E for building a new Middle School.

I have needed a new roof for a number of years and recently had to get a loan and use some meager savings put a new one on. I would have saved a lot of money if I had done it four years ago but I did not see the big picture at the time. Luckily I did not get water damage to the house that would require more costly repair and lower my home value. It's simple to understand that going the cheaper option fails to solve the underlying problems and critical needs and just makes us all have to spend more in the near future. Home values decrease when the schools are not desirable as well. I'm pretty sure most people in town will understand if presented in this way. Please include the sensible choice, E, in your proposal.

Ed Pfueller, 42 Longfellow Dr.
