Dear SBAC,

I have one child at pond cove and another starting kindergarten in the fall. I'm writing to support option E for the school building project. It's the least disruptive and gives us the most longevity for the cost. We desperately need at least one new building and I can't support a building project that doesn't address the safety and health concerns of the current facilities. Selfishly I also don't want my kids to spend their entire elementary school years in portables, nor do I want that for the staff. Please put option E forward to voters next fall. It's the only option that really moves us forward in terms of updating these facilities. Everything else is just kicking the can down the road.

Best,
Taylor Neff
7 Bayview Rd
