Hi all --

I keep thinking about how one of your stated key criteria for picking an option is "it needs to pass."

I know how many emails you've received over the last week supporting E. There are more on the way.

Think about it this way: If this number of people are willing to reach out to you now, for a vote of a *committee*, just think about how those people are going to rally others to vote. How they are going to push everyone they know to get a new middle school for our town. To finally -- finally -- be proactive about this town's financial future.

Vote for E. We can do it. We can get it passed.
