I am writing in support of Option E. I feel strongly that the other options simply deliver less overall return on our investment.

None of the options are inexpensive.

None of the options *won't* increase our taxes.

BUT- only one will have staying power over time; scaling to meet shifting demographic and educational needs over the years to come.

Only one will cause very little disruption for the children in our schools now, who will not be in the school to enjoy it when it's completed.

Only one will help Cape attract and retain the best administrators and educators to regain our status as among the top 5 in the State.

Option E is the only logical choice.

Thank you-
