Option E is by far the best choice for our schools and our town. It's the only choice that doesn't disrupt students for years (and have the town pay millions for the disruption of portable classrooms). It's the most financially responsible choice, as it's the only long-term solution, not requiring yet another set of renovations in 10 or so years. Most important, it provides the best environment for our students, meeting health and safety needs as well as providing a better educational environment.

Option E is the only responsible choice.
