Good morning SBAC,

My name is Jessica Johnson and my husband David and I have lived in Cape Elizabeth for almost 22 years and both of our children attended Cape Elizabeth Schools from kindergarten through high school (2021 and 2023 graduates). We thank you for your efforts throughout this process – working with two different architecture firms and trying to find an option that both aligns with the immense needs of our school facilities and the financial concerns of Cape Elizabeth residents. As an Architect myself, I am completely on board with as much “new” building as is financially feasible – renovations are costly and disruptive and we cannot afford to use the band aid approach any more.

Our vote is for Option E as the most fiscally responsible choice that also meets the needs and challenges of designing school buildings that provide long-term solutions and that address the concerns related to modernization, meeting current educational needs/standards, and providing safe environments for students and staff.

Thank you for all of your time and effort,

Jessica & David Johnson

1210 Shore Rd.
