Right now the limit is \$ 1 million per expenditure per year. Last summer they got away with \$ 950,000 for “schematics” etc. and of course, we have not had the requested list of itemized expenditures for that money - and it’s possible not all of it has been spent.

After spending \$1 million dollars with Colby and Simons we are back to where we started. The charter for your committee is clear that you are to engage the design professionals. Accordingly, they should not be on board without this committee’s explicit authorization. One would have thought that Colby and Simons engagement would have ended in November, 2022, with the overwhelming rejection by the voters of the Colby and Simons plan.

I've been out of town for a few days so I didnt hear this. Somehow we need a public outcry (against C/S) demanding new architects .

Sounds like a good subject for an ad (and some LTEs) in the next Cape Courier

Hi Matt,

I can verify that Colby Simon is no longer being compensated for any additional design work. To finish up their work with the school district they are compiling all of their work to date (at no additional cost) for our records and for the SBAC and soon to be hired owner's rep to review.

Thanks,
Chris

Hi Chris,

I received this email chain, and it may be helpful to clarify that Colby and Simons are currently complete and not being compensated for any additional design work, or at least that is my understanding.

I was just interviewed by WGMe. I stressed the need to give the new committee the chance to look at all the options. New or renovated buildings as they deem appropriate. Starting with fresh look new architect and engineers and

recommend an affordable result for the town taxpayers. Should be on tonight's news.

Tim
