Subject: Baseball Shed

I received an email from Dan Sullivan (CE Little League President) + (Volunteer coach for the MS Developmental Team playing SP Boys Club) asking if they could build an 8x10 storage shed next to the MS batting cage (Ray Moulton Field). CE Little League would pay, build and maintain the shed and the CE MS baseball teams could use it as well.

I took this photo of the shed at Lions Field. This is the same size and design that CE Little League would like to build on Moulton Field.

Thanks,  
Jeff

Jeff,

Can you please let me know if Little League has approval to locate a shed at the Middle School Field? This shed will be fully funded by LL and it will store all of our field equipment. There will be no fuel or gas powered equipment in this shed. Only a few adults will have the combination to enter it.

Your public works dept will also have access to the shed and equipment as needed.

Thank you,

Dan
