# Edutelligence™

Combining technology and expertise to help districts measure, monitor, and improve absence management.

*Through our partnership with the **National Center for School Leadership**, eSchool Solutions has aligned teacher, school, and climate and culture survey results with district absenteeism patterns and with school performance data to drive new leading indicators of school performance.*

## **How it Works**

We start with your district's absence data. Using this information, we're able to work through the needs of your entire district. By analyzing all aspects – from school locations to subject matter – we can show you *why absences are occurring and how to:*

- Reduce absenteeism through better visibility into teacher absences
- Align your substitute pool with the needs of your district
- Reduce substitute turnover through better recruiting practices
- Proactively respond to your district's constantly changing needs
- Control costs and stay on budget

**Measure:** Our Absence Management Assessment methodology allows us to present your district with a clear statement of the opportunities available for improvement. We can also help you determine which opportunities will provide the greatest return based on available resources.

**Monitor:** Vital to the success of the Human Resources function is the ability to have timely and relevant information. With the reporting capabilities in our Analytics Module our customers can monitor their key performance indicators to see the effect – and to ensure they're having the desired effect.

**Improve:** Key to constant innovation and improvement is having a team around you armed with past experience from working with school districts throughout North America, equipped with custom built technology and – limited only to your imagination – to assist you in tackling and implementing new solutions.

Finally, with Edutelligence, we can align the different data systems your district is using to drive actionable findings and impactful results like:

- Improving the operational efficiency of your program by removing barriers to information
- Aligning data from multiple systems to benefit your decision making

We've combined data from multiple systems for our clients to provide them with a complete picture of their district's absenteeism. We can help you too.

*Through strategic management, Human Resources can impact student performance. At eSchool Solutions, our mission is to partner with districts focused on initiatives that improve student achievement.*

## READING YOUR RESULTS

This report summarizes the responses made by individuals who participated in the survey. The information below outlines how to read the results included in this report.

**"PERSPECTIVE"** refers to an identifiable group of respondents that have rated a given question.

**"ACTUAL"** refers to the total number of respondents who provided a *response* to a given question. Due to response variability, counts for "Actuals" across perspectives may not equal the total number of participants.

**"No Response(NR)"** refers to the number of respondents who left the question blank or provided a Neutral response. For purposes of this report, Neutral are considered the same as a "No Response".

**"# of RESPONSES"** refers to the number of "Actuals" who responded with a 1, 2, 4, & 5.

**"SD"** refers to the standard deviation. SD's greater than 1.5 indicate high variability across responses, and should be examined more closely.

**"AVG"** refers to the average (agreement) rating of all responses for a particular question.

Bar Charts are based on the following scale:

"1" represents *Strongly Disagree*.

"2" represents *Disagree*.

"4" represents *Agree*.

"5" represents *Strongly Agree*.

Please note that respondent who did not answer or provide a "3" Neutral response are included in the **"No Response (NR)"** category.

Sample question output:

## READING YOUR RESULTS

Note: Ratings are indicated as a percentage value and graphically represented by a Bar chart.

UNFAVORABLE RATINGS (1's or 2's) are shown as a percentage and represented as a DARK GREY BAR on the accompanying chart.

FAVORABLE RATINGS (4's or 5's) are shown as a percentage and represented as a LIGHT GREY BAR on the accompanying chart.

■ = % Unfavorable

□ = % Neutral

■ = % Favorable

Depending on the actual results, there may be any combination of these two bars on your reports.

The PREDOMINANT VIEW of each group is represented by the LONGEST BAR. Due to rounding, the combined percentages of these two bars may be slightly above or below 100%.
