Here are two new grant competitions that may be of interest:

Meeting Education, Environment, and Community Needs

The Irving Community Fuel Grant Program is a corporate giving program that supports projects in education, environment, and community need within Irving Oil retail service areas in the Northeast and Canada. In the field of education, the program supports initiatives ranging from early childhood education to afterschool mentorships for teens. In the environmental field, Irving supports environmental programs that help to preserve the natural environment for generations to come. In the field of community need, the program supports projects that address a community's most pressing needs, from access to healthcare to homelessness. The program will consider requests from nonprofits for one-year grants of up to \$15,000. Apply by June 30, 2011.

Shaping the Future of New England Towns

The Orton Family Foundation's Heart & Soul Community Planning program invites proposals from small cities and towns (no more than 30,000 residents) committed to planning for future growth and change that preserves and enhances their community's character-its distinctive "heart and soul" attributes. Offering an innovative approach to community planning, the Foundation seeks towns where partners are ready to work together to significantly increase citizen involvement. The Foundation will select four (4) communities in New England and the northern Rocky Mountain West. Each selected community will be eligible for training, technical assistance and up to \$100,000 in supporting funds over two years. Communities are expected to provide a 1:1 match through a combination of cash and in-kind resources, including a minimum \$25,000 cash match. Apply by July 20, 2011. Two calls will be held on June 9 and July 11 for communities interested in responding to the RFP.

Dena,

What do you think of discussing the Irving grant at the next CC meeting and submitting a request to replace that 51' long Pollack Creek bridge off Spurwink Ave?

Maureen
