- ❖ Presentation from Ameresco in the background of their company and experience they have with not only solar arrays but smaller energy savings projects as well. An example of a possible solar project at Cape Elizabeth was given of the open area in the back of the Transfer Station. It was estimated that this area could generate approximately 1.9M kWh equalling \$250,000 in net metering.
- ❖ After the presentation, a brief discussion was held on the preparation efforts to meeting with Town Council on September 9th.
