

**Subject: FWAC: May 15 meeting**

Hello All:

As you know, we had planned to meet with members of the Foundation in May, however, because of the unavailability of some of those members that meeting has been postponed to a later date.

Therefore, instead of holding our regular meeting at the Public Works Building next month, Lise, Bob and I think it would be important and helpful to have a walking tour of the Park in order to familiarize ourselves with certain areas that are, or will be at a future date, of particular interest to the Commission. We should plan to meet at the Parade Field parking lot at **5:30 pm**. I appreciate that 5:30 pm is early for some of you but I do hope that with sufficient notice everyone will be able to attend. In the event of rain the walking tour will be rescheduled to a later date.

The plan is to meet at the Parade Field parking lot and then proceed as follows:

1. Ocean/Wheatley Road project (Priority #5 of the 2011 Master Plan)
2. Site of the potential group reception area (Priority #3 of the 2011 Master Plan)
3. Bleachers
4. Children's Garden and Pond
5. Upper tennis and basketball courts
6. Parking areas at playground and maintenance buildings (Priority #8 of 2011 Master Plan)
7. Site for potential second picnic shelter (Priority #9 of 2011 Master Plan)
8. Light House View project
9. Cliff Walk (Although we have approved the installation of additional railing along portions of the Cliff Walk, Bob would like to propose installing railing in a area that was not previously identified).

Thanks.

Bill
