

MEMORANDUM

TO: Cape Elizabeth Planning Board
FROM: Conservation Commission
DATE: April 11, 2013
SUBJECT: CELT Robinson Woods II RP Permit

At the April 9, 2013 meeting, the Conservation Commission reviewed the application submitted by the Cape Elizabeth Land Trust for a Resource Protection permit to relocate and improve trails at Robinson Woods II. By a vote of 6-0, they adopted the following recommendation:

The Conservation Commission recommends support for the Resource Protection Permit. The commission further recommends that best practices be used to harden the trail surface where it becomes muddy and to minimize erosion. The proposed bridges are consistent with what the Conservation Commission has installed.

The Conservation Commission emphasizes that they remain available to assist with trail design, installation and maintenance.
