

## MEMORANDUM

TO: Cape Elizabeth Town Council  
FROM: Conservation Commission  
DATE: September 1, 2016  
SUBJECT: Cottage Brook trail boardwalk

The Conservation Commission is requesting authorization to apply for a Resource Protection Permit from the Planning Board to construct a boardwalk in a wetland along a muddy portion of an existing trail in the Cottage Brook area.

The commission is estimating that up to 250' of 4' wide boardwalk is needed to span a muddy section of the trail. Commission members and volunteers will build the boardwalk and supplies will be funded from this year's Greenbelt trails budget.

Below is a map of the location of the proposed boardwalk.
