

## MEMORANDUM

TO: Cape Elizabeth Planning Board  
FROM: Conservation Committee  
DATE: November 21, 2017  
SUBJECT: Bailyn-Morris Resource Protection Permit

The Conservation Committee discussed the Bailyn-Morris Resource Protection Permit application at the November 14, 2017 meeting. At this time, the Conservation Committee voted unanimously (5-0) to make the following recommendation:

The application is not complete because there is no proposal to restore some of the filled wetlands. A restoration proposal should include specifications on how restoration will be accomplished and a timeline for completion of the work.
