

## Library Director's Report

### June 2018

#### **TMLF Generator Proposal**

I shared with Matt the same update I did with this group from my meeting with George on the TMLF Executive Committee's recommendation to the full TMLF to put the generator proposal on hold while they explored the solar option further and once again consulted with Town Council on their plans for a town wide system. On May 21, Matt wrote to George thanking him for the TMLF's consideration but notified him that the Town was withdrawing its proposal and would put a generator for the library in the CIP cycle.

#### **Library Landscaping**

I would like to thank the Cape Elizabeth Garden Club for their many hours of volunteer work spent cleaning up and weeding the Library's flower beds, and for adding many beautiful plants to the landscape.

#### **Summer Programming**

We have a full slate of summer programming, including the Summer Reading Program, the outdoor summer concerts, and many special summer events. I'd like to thank the library staff for all their work on putting these together and to the TMLF for their financial support for several of the programs.

#### **Conference Presentation Accepted**

Rachel Davis submitted a program proposal to the Maine Library Association Conference, with Kiah Gardner (Children's Programming Assistant) and Maria Ahearn (local artist). The program is called "Beyond Cut & Paste: Creating Meaningful Art Experiences for Children at Your Library". This program has been accepted and they will be presenting it.
