

## Library Director's Report

### November 2018

#### **Building Updates**

The TMLF approved the funding request for the new display unit at their Sept 27 meeting. I hope to have the funds from them soon so I can make the deposit payment and work can begin on the unit.

Earlier this year one of our long time patrons, Dorothy Stack, passed away. The endcap display shelves have been ordered and will hopefully arrive sometime in January.

I've included the plans for how the teen section will be moved and integrated into the area of the library where the study carrels are now. The study carrels and other items will move to where the teen section is now; this will provide us with a quiet side by the study rooms. I'm working to coordinate this move with Facilities.
