

## MEMORANDUM

TO: Cape Elizabeth Town Council  
FROM: Planning Board  
DATE: March 25, 2015  
SUBJECT: Land Use Zoning Amendments

### Introduction

At the February 11, 2013 meeting, the Town Council referred recommendations from the Future Open Space Preservation Committee (FOSP) and the last package of Comprehensive Plan recommendations, referred to as the "Land Use Amendments package" to the Planning Board for implementation. This memo contains the list of recommendations and a description of the proposed amendment.

### Why adopt these amendments

• **Comprehensive Plan.** The bulk of the proposed amendments are explicitly recommended in the Comprehensive Plan. The plan emerged from a 2-year effort by the town to plan through the year 2020. The plan was drafted by a 10-member committee representing a range of community perspectives and unanimously adopted by the Town Council in 2007. Deemed consistent with state goals, the comprehensive plan is not only the town's broad vision of land use policy, but also the legal underpinning for land use regulations. Town land use regulations must be consistent with the comprehensive plan. This amendments package represents the last set of high priority recommendations from the comprehensive plan.

• **Town demographics.** Like the entire state, Cape Elizabeth's average age is increasing as seniors become a larger percentage of the town's population. The comprehensive plan incorporated this trend into its recommendations to focus on multi-family housing. The current housing available for our seniors who want to transition out of single family homes is very limited and adding multi-family units could meet that need. More generally, diversifying the housing types can meet needs for more than seniors.

• **Public Benefit Goals.** The town vision strongly emphasizes preserving open space, agricultural lands, and sensitive environmental areas. These amendments include incentives for the private sector to advance public goals.

#### How to read the draft amendments

Excerpts from the Zoning and Subdivision Ordinance are the basis for the proposed amendments. Only ordinance sections that are proposed for revision and closely related sections are shown. The bulk of the Zoning Ordinance and Subdivision Ordinance will remain unchanged and include substantial regulations. Proposed text changes are shown in red underline. Existing ordinance language to be deleted is shown in ~~red strike-through~~. A clean copy showing how the ordinance changes would read if all proposed changes are adopted can be provided upon request.

#### Referrals and draft recommendations

Below is a list of the FOSP recommendations (#.), annotated with Comprehensive Plan recommendations (•). Following each recommendation is a description of the text amendments proposed to implement the recommendation. Next to the Implementation description is the page and line location of the proposed amendment in the Land Use Amendments text document.

1. **Land Use Chapter Recommendations.** The town council requests the planning board to restart its implementation of the Land Use Chapter recommendations in the 2007 Comprehensive Plan, with emphasis on the [above] recommendation (which follows).

*FOSP recommended that the current regulations promoting clustering be retained. More work should be done to investigate the potential for increasing the amount of open space that is preserved while maintaining the density allowed that makes this a desirable option for property owners. More emphasis should also be put on preserving contiguous open space and connectors and less on open space as buffer strips.*

Pg 14, Ln 22 **Implementation:** The cluster regulations are located in Sec. 19-7-2, Open Space Zoning, in the Zoning Ordinance. There is no proposal to delete or reduce the Open Space Zoning regulations. Subsection D (1) in the Open Space Zoning provisions establishes priorities for what land is preserved as open space. Amendments to this section are proposed that make contiguous open space a higher priority and discourage buffer strips. It should be noted that open space zoning developments must also comply with the Subdivision Ordinance, which includes a buffer provision. Buffering is still required, but more emphasis is placed on contiguous open space.

- 9. Designate BB Districts as Sewer Service Areas.

Pg 1 **Implementation:** Existing Sewer Service Areas are shown on the town sewer map (blue palette colors). The attached map proposes to designate areas zoned Business B (BB, shown in pink) as sewer service areas. The town currently has 2 BB zones, one located at the Inn by the Sea, and a newer one located immediately south of the Town Center Zone on the Murray Earthworks contractor facility on Fowler Rd. This change eliminates a step needed for new development in the BB District to connect to public sewer.

- 14. Review the minimum lot size and setback requirements for multi-family and attached single family dwellings (condominiums) to determine if they are creating obstacles to developing a variety of housing types.

Pg 5, Ln 25 **Implementation:** The Planning Board compared dimensional  
Pg 6 requirements for subdivisions and multiplex development. The  
Pg 7, Ln 25 table below shows that minimum lot size requirements  
Pg 9 are higher for multiplex development than for a single lot  
Pg 10 subdivision. The amendments equalize the standards by reducing  
Pg 11 the minimum lot size from 10 acres to 5 acres in the RA District and  
from 5 acres to 3 acres in the RC District. The setback differentiation  
is also eliminated.

Multi-unit dimensional standards comparison with single family development									
Zoning District	Use Permitted	Minimum Lot Area		Density (sq. ft.)		Maximum units/building	Setbacks (ft.) <sup>4</sup>		Height
		Single family	Multi-unit	Single family	Multi-unit		Single family	Multi-unit	
RA	Multiplex housing	none	10 acres	80,000	66,000	5	30/30/30	75	35'
<i>Proposed</i>			<i>5 acres</i>			<i>n/a</i>		<i>30'</i>	
RB <sup>3</sup>	Multiplex housing	none	80,000 sq. ft.	60,000	60,000	5	30/30/30	75	35'
<i>Proposed</i>						<i>n/a</i>		<i>30'</i>	
RC	Multiplex housing	none	5 acres	20,000	15,000	5	20/20/20	75	35'
<i>Proposed</i>			<i>3 acres</i>			<i>n/a</i>		<i>20'</i>	
TC <sup>2</sup>	Multifamily dwelling unit <sup>1</sup>	none	7,500 sq. ft.	80,000	3,000	none	25-35/15/15	25-35/15/15	35'
BA <sup>5</sup>	Multifamily dwelling unit <sup>1</sup>	none	15,000 sq. ft.	80,000	7,500	none	10-25/5/5	10-25/5/5	35'

<sup>1</sup> Only allowed as accessory to a nonresidential use

<sup>2</sup> Design requirements also apply; side/rear setback is 50' abutting residential district

<sup>3</sup> See Sec. 19-7-2, Open Space Zoning

<sup>4</sup> Setbacks are shown as front/side/rear. Front setback is shown based on local street classification.

<sup>5</sup> Design requirements also apply; side/rear setback is 20' abutting residential district

- 15. Evaluate establishing a density bonus for 55 and older restricted developments.

**Implementation:** The Planning Board is recommending that the existing eldercare housing provisions (Zoning Ordinance) provide adequate density bonus. It is also proposing changes to multiplex development regulations that will generally promote housing that can meet senior needs.

- 82. Increase the density of the RB District, which includes 7% of the acreage of the town, with Open Space zoning, where public sewer is available, from 30,000 sq. ft. to 20,000 sq. ft per lot, and increase the Open Space Zoning open space requirement from 40% to 45% in the RB District.

Pg 13, Ln 19 **Implementation:** In Sec. 19-7-2, Open Space Zoning, the maximum  
Pg 14, Ln 13 density in the RB District has been increased to 1 unit per 20,000 sq. ft. for developments served by public sewer. In subsection C (4), the mandatory amount of open space to be preserved has been increased from 40% to 45% for developments served by public sewer. Consistent with the Comprehensive Plan goal to promote a diversity of housing types<sup>1</sup>, the amendments include an incentive to construct 1 and 2 bedroom units.

<sup>1</sup> Comprehensive Plan Housing Goal 1: The Town should promote a diversity of housing types to accommodate residents of all age groups and household sizes.

- 83. Review the design of open space in the Open Space Zoning provisions to maximize the amount of open space in a single contiguous parcel and discourage narrow strips, except when strips are necessary for trail connections.

Pg 14, Ln 22 **Implementation:** The Open Space Design standards have been reorganized for clarity and to more clearly implement open space priorities. This section includes the guidance on what type of land is preserved as open space in a development and the legal mechanism used to permanently preserve the land. The section has been reorganized into 2 sections. Section 1, Land to be preserved, addresses preserving open space in large, contiguous chunks with connections to other open space and neighborhoods. It also updates what land is highest priority for preservation by applying the FOSP open space priorities.

The second section modernizes the legal requirement to protect preserved open space. This section was revised with significant input from town attorney John Wall. A new addition to this section is an explicit statement encouraging that preserved open space be accessible to the general public and not just to residents of the development. This is the common practice of the Planning Board with the cooperation of the developer.

- 84. Make the Open Space Impact Fee not applicable when a subdivision is designed in compliance with the Open Space Zoning Regulations, which include a separate open space requirement.

Pg 2, Ln 14 **Implementation:** The amendment adds to the open space impact fee section in the Subdivision Ordinance that compliance with the Open Space Zoning provisions in the Zoning Ordinance is a method to meet the open space impact fee requirement. The Open Space Zoning provisions require a minimum 40% open space preservation and include detailed standards regulating what land is preserved as open space.

- 85. Eliminate the cap on the number of units per building allowed for multiplex developments located in the RC and RB Districts. Create design standards for buildings exceeding 5 units and a maximum height limit that is greater than the current 35' height limit. This will be available only in conjunction with the Agricultural TDR (# 85), developments targeted to 55 and older (# 15) or an affordable housing overlay district (#19).

Pg 3, Ln 14  
Pg 18, Ln 45  
Pg 22, Ln 9  
Pg 7, Ln 16  
Pg 7, Ln 24 **Implementation:** Reference to units per building have been deleted from the Multiplex Housing definition. The remaining multiplex design standards in the definition have been replaced with a new and expanded Multiplex Development Standards section located in the Open Space Zoning Provisions. Amendments

Pg 12, Ln 1 in the RA, RB and RC Districts require that any new multiplex development must comply with the new standards. The Multiplex Development Standards also include density bonus options for multiplex development when agricultural land, affordable housing or more open space is preserved.

Pg 20, Ln 10 The Multiplex Development Standards include illustrated design requirements. At this time, pictures are shown as placeholders for line drawings intended to be used as illustrations. Similar illustrations are in the Town Center and Business A Districts.

- 86. Reduce the minimum lot size required for multiplex housing in the RC District from 5 acres to 3 acres and eliminate the minimum lot size for multiplex housing in the RB District.

**Implementation:** See Recommendation #14 above.

- 90. Designate the RB Districts as Sewer Service Areas.

Pg 1 **Implementation:** The Sewer Service area map shows existing sewer service areas in shades of blue. RB Districts proposed to be designated as sewer service areas are shown in yellow. This change eliminates a step needed for new development to connect to public sewer.

- 91. Require new subdivision development in the RB District to be served by public sewer.

**Implementation:** The Planning Board is concerned that a blanket requirement to connect to public sewer will have an unreasonable economic impact on small development and is not recommending this change. The Planning Board remains committed to strongly encouraging connection to public sewer whenever feasible. For example, the new Multiplex Development Standards requires public sewer connection, and provides a bonus when the public sewer connection is more than 1/4 mile away.

2. **TDR.** *FOSP recommended that the town retain the current TDR regulations. The Planning Board should be tasked with reviewing the TDR sending areas map to align it with Open Space criteria priorities.* The town council requests that the planning board include this recommendation in its comprehensive plan Land Use Chapter recommendations.

Pg 27 **Implementation:** Revisions to the TDR map are proposed based on the open space priorities recommended by FOSP. The proposed changes were finalized after receiving public comment at a

public forum focusing on large property owners. Existing TDR areas are shown in yellow. Areas to be deleted are shown with red outline and hatch. TDR areas to be added are shown in light brown.

Pg 23- TDR provisions have been generally cleaned up. Finally, a new  
Pg 25 provision has been added to implement the agricultural land TDR  
Pg 25, Ln 40 bonus recommended in the Comprehensive Plan.

3. **Growth Areas.** *FOSP recommended that the review of growth areas be referred to the Planning Board as part of the resumption of the Planning Board's comprehensive plan implementation work. The Planning Board's comprehensive planning implementation work should include public outreach about the benefits of open space zoning. The Planning Board should also recommend ordinance amendments that make preservation of agricultural land a higher open space priority when preserving open space as part of new development.* The town council requests the planning board to do so.

**Implementation:** The Planning Board recommends that no change to growth areas is required at this time.

4. **New Subdivision Ordinance consistency.** When the new Subdivision Ordinance was adopted, general purpose section numbers, such as public notice and public hearing procedures, were changed. These sections are referenced in the Zoning Ordinance and the amendments update the references.

Pg 5, Ln 1 **Implementation:** Proposed amendments to the Zoning Ordinance  
Pg 28, Ln 45 to update references to public notice and performance guarantee  
Pg 29, Ln 16 requirements have been added.  
Pg 29, Ln 31  
Pg 30, assorted

5. **Non-conforming lot frontage.** The Code Enforcement Officer has encountered some conflict with provisions regarding street frontage for non-conforming lots. He has asked the Planning Board to add language clarifying the current practice of requiring lots with insufficient frontage to comply with the Private Access provisions.

Pg 3, Ln 41 **Implementation:** Language has been added that clarifies a lot with insufficient street frontage can still be buildable, but must comply with the Private Access provisions, which typically means a Private Accessway Permit from the Planning Board.

### Planning Board Recommendation

At the March 23, 2015 meeting, the Planning Board voted unanimously in support of the following motion:

BE IT ORDERED that, based on the materials submitted and the facts presented, the Planning Board recommends the Land Use Amendments, as revised by consensus at the March 23, 2015 meeting, to the Town Council for consideration.

The Planning Board looks forward to meeting with the Town Council to review the proposed amendments.

Maureen O'Meara &lt;maureen.omeara@capeelizabeth.org&gt;

## Private Accessways

1 message

Tue, Nov 25, 2014 at 12:35 PM

Maureen,

We have discussed lots that lack the required road frontage and how they should be handled. An example would be a lot that has 50 of road frontage on a public road. Past precedent shows that lots like this went to the Planning Board for a Private Accessway permit. In my opinion, as the Zoning Ordinance currently reads, we are on shaky legal ground proceeding in this manner. Section 19-4-3.A seems to clearly state that I should issue building permits on such lots, with no regard to the private accessway provisions. See below. The remedy for this is to reference the private accessway requirements in 19-4-3.A. Seems like a relatively simple addition if we want to be on strong legal ground sending these to the board.

"A. **Nonconforming Lots** : The following provisions shall govern the development of lots that are nonconforming because they do not meet the minimum lot area, net lot area per dwelling unit, **minimum street frontage**, or similar requirement of the district within which they are located.

### 1. **Vacant Nonconforming Lots**

a. Vacant nonconforming lots may be built upon in conformance with the provisions of the district in which they are located **even though the lots do not meet the minimum lot area, net lot area per dwelling unit, street frontage**, or similar requirements as long as the requirements of the chart below are met. (Effective August 11, 1999 and revised effective July 4, 2001)

**The Code Enforcement Officer may issue a building permit and related permits and approvals for a principal structure and related accessory buildings and structures that do not comply with the setbacks and other Space and Bulk Standards that would otherwise be required in the district in which it is located as long as the following standards are met: (Effective August 11, 1999) "**

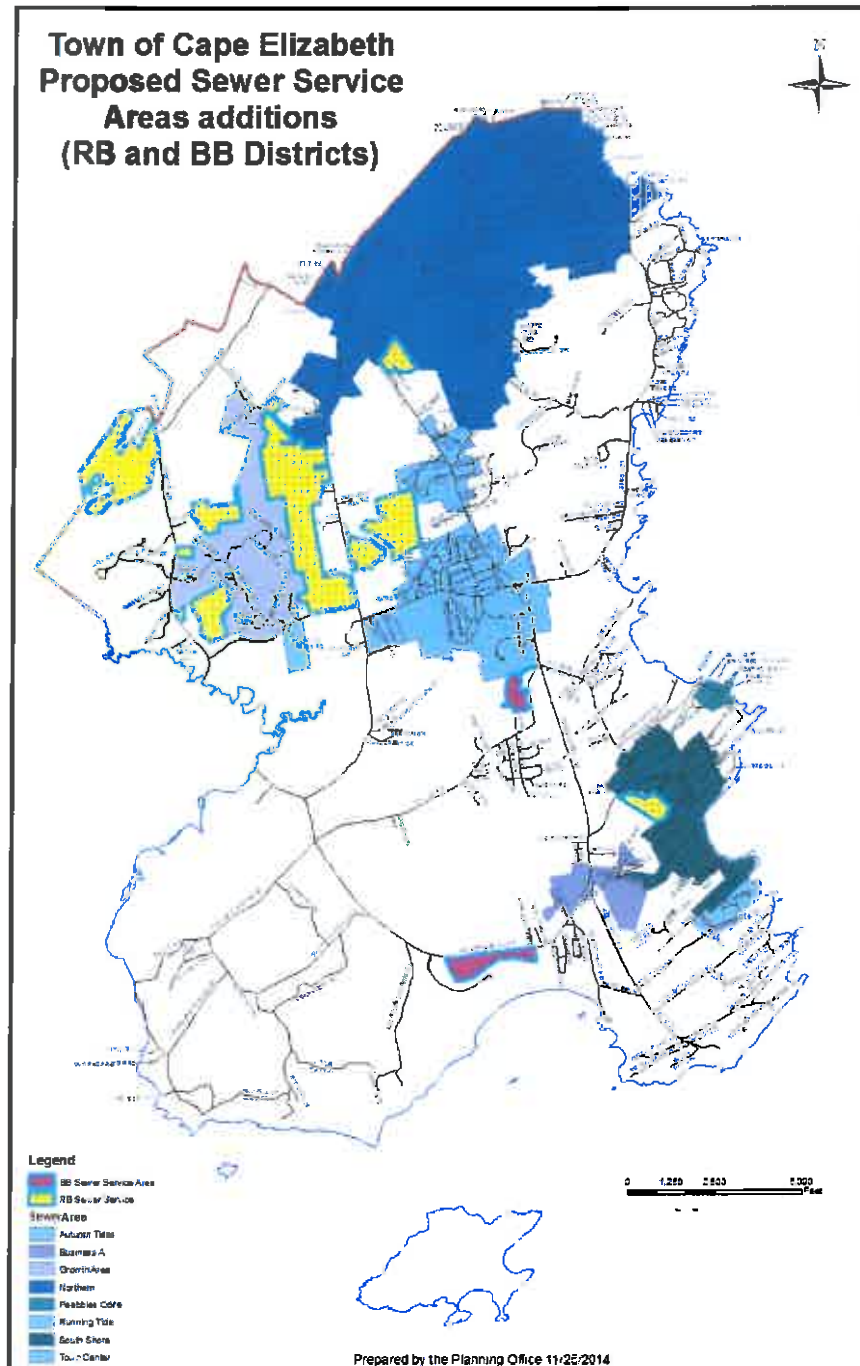

Regards,  
 Ben

Benjamin McDougal  
 Code Enforcement Officer

CHAPTER 16  
SUBDIVISION ORDINANCE

**Sec. 16-3-1. Subdivision Review Standards.** A subdivision shall meet all of the following standards of review, as determined by the Planning Board.

**(t) Open Space Impact Fee**

1. **Purpose.** In order to accommodate the expected needs of the subdivision for open space and recreational areas without diminishing the community standard of public open space, the applicant shall be required to donate land with legal public access or otherwise conserved with a public benefit or a cash contribution in lieu of actual land dedication, or a combination of the above, at the option of the Planning Board and with the advice of the Conservation Commission. When a subdivision is designed in compliance with Sec. 19-7-2, Open Space Zoning, the open space conserved shall be deemed to satisfy the Open Space Impact Fee.

## CHAPTER 19

### ZONING ORDINANCE

#### SEC. 19-1-3. DEFINITIONS

**Multifamily:** A building containing 2 or more dwelling units (excepting accessory dwelling units), or a mixed use building containing 1 or more dwelling units. (Effective February 12, 2005)

**Multiplex Housing:** Multiplex housing is housing containing two (2) or more attached dwelling units, ~~each of which has independent outside access. Multiple units may be arranged in a variety of configurations including side by side and/or back to back. A multiplex should have the look of large, closely spaced, single-family detached units with the essential feature being the small number of units attached in one building. Each individual building may contain no more than five (5) units with an average of not more than four (4) units per building for the entire project, except that the maximum and average number of units per building shall not apply in the Town Center District.~~ (Revised effective December 10, 2003)

#### SEC. 19-4-3. NONCONFORMANCE OUTSIDE OF SHORELAND AND RESOURCE PROTECTION DISTRICTS

The following provisions shall govern the use and modification of nonconforming lots, structures, and uses in all areas of the Town that are not located within a Shoreland Performance Overlay District or a Resource Protection District. Nonconformities within the Shoreland Performance Overlay District shall be governed by the provisions of Sec. 19-4-4, Nonconformance Within the Shoreland Protection Overlay District, and nonconformities in the Resource Protection Districts (RP1-CW, RP1-CW Buffer Overlay, RP2-WP, and RP3-F) shall be governed by the provisions of Sec. 19-4-5, Nonconformance Within the Resource Protection Districts.

##### A. Nonconforming Lots

The following provisions shall govern the development of lots that are nonconforming because they do not meet the minimum lot area, net lot area per dwelling unit, minimum street frontage, or similar requirement of the district within which they are located. Lots that do not meet the minimum street frontage requirement shall also comply with Sec. 19-7-9, Private Access Provisions, before a building permit can be issued.

##### 1. Vacant Nonconforming Lots

- a. Vacant nonconforming lots may be built upon in conformance with the provisions of the district in which they are located even though the lots do not meet the minimum lot area, net lot area per dwelling unit, street frontage, or similar requirements as long as the requirements of the chart below are met. (Effective August 11, 1999 and revised effective July 4, 2001)

One Owner	One Owner	One Owner	Individual Lots May Be built On
Non-Conforming Lot	Non- Conforming Lot	Non- Conforming Lot	

		One Owner	<b>Proposed undersized lot is NOT buildable</b>
		Conforming Lot	
One Owner	Proposed Undersized Lot		
Non- Conforming Lot			

The Code Enforcement Officer may issue a building permit and related permits and approvals for a principal structure and related accessory buildings and structures that do not comply with the setbacks and other Space and Bulk Standards that would otherwise be required in the district in which it is located as long as the following standards are met: (Effective August 11, 1999)

### SEC.19-5-3. PROCEDURES

#### A. Establishment and Notice of Meeting Date

Upon receipt of any notice of administrative, variance, or sewer appeal, application for conditional use, or application for a setback reduction, the Code Enforcement Officer shall forthwith notify the Chair of the Board, who shall establish the date of the meeting at which the application will be considered based upon the submission deadlines for the regular meetings of the Board. The Code Enforcement Officer shall give notice of such

public hearing in accordance with Sec. ~~16-2-1(b)~~ ~~16-2-4(a)(7)~~ of the Subdivision Ordinance, except that a legal notice shall be published once in a newspaper. (Effective August 11, 1999)

## SEC. 19-6-1. RESIDENCE A DISTRICT (RA)

### A. Purpose

The Residence A District includes lands that are outside of the built-up areas of Cape Elizabeth, lands to which public sewer lines are not expected to be extended in the near future, and large tracts suitable for farming, woodland production, and wildlife habitat. The purpose of this district is to allow residential development that is compatible with the character, scenic value, and traditional uses of rural lands and that does not impose an undue burden on the provision of municipal services.

### B. Permitted Uses

#### 2. *The following residential uses:*

- a. Single family dwelling
- b. Manufactured housing on an individual lot
- c. Multiplex housing
- d. Eldercare facility, subject to the provisions of Sec. 19-7-6, Eldercare Facility Standards

MINIMUM LOT AREA	
(1) <i>Boat repair facility for commercial purposes</i>	200,000 sq. ft. (4.6 acres)
(2) <i>Multiplex housing</i>	<del>10.5</del> acres
(3) <i>Eldercare facilities</i>	10 acres
(4) <i>Golf Course (Effective February 12, 2003)</i>	150 acres (Effective February 12, 2003)
(5) <i>Wind energy systems (Effective. October 8, 2008)</i>	20,000sq. ft.
(6) <i>Other uses</i>	80,000 sq. ft.
MAXIMUM NUMBER OF DWELLING UNITS PER AREA	
(1) <i>Multiplex housing</i>	1 unit per 66,000 sq. ft. of net residential area

<i>(2) In subdivisions</i>	1 unit per 80,000 sq. ft. of net residential area
<i>(3) In subdivisions that conform to Sec. 19-7-2, Open Space Zoning</i>	1 unit per 66,000 sq. ft. of net residential area
<i>(4) In eldercare facilities</i>	1 unit per 6,000 sq. ft. or 1 bed per 3,500 sq. ft. of net residential area, whichever is less
<i>(5) Other housing</i>	1 unit per 80,000 sq. ft. of gross lot area
<b>MINIMUM SETBACKS</b>	
<i>(1) All uses unless otherwise specified</i>	
(a) Side yard setback	30 ft.  The side yard setback may be reduced in accordance with Sec. 19-4-3.A.2, Developed Nonconforming Lots. <b>(Effective August 11, 1999)</b>
(b) Rear yard setback	30 ft.  The rear yard setback may be reduced in accordance with Sec. 19-4-3.A.2, Developed Nonconforming Lots. <b>(Effective August 11, 1999)</b>
© Front yard setback	The front yard setbacks set forth below may be reduced, only on roads which are not classified arterial, to the average setback of the two principal structures fronting on the same road in closest proximity to the site of the proposed structure, but any structure must be at least 20 feet from the right-of-way.
- Arterial street	50 ft.
- Collector, rural connector, and feeder streets	40 ft.
- Local and private streets	30 ft.
<i>(2) <del>Multiplex housing and</del> Elder care facilities</i>	
(a) From property line	75 ft.

**(5) Open Space Zoning Subdivisions**  
(See Sec. 19-7-2)

- (a) Side yard setback 20 ft.
- (b) Rear yard setback 20 ft.
- (c) Front yard setback 20 ft.

**F. Site Plan Review**

The following uses and activities shall be subject to site plan review by the Planning Board, according to the terms of Article IX, Site Plan Review, prior to issuance of any building permit, plumbing permit, or other permit:

- 1. Multiplex housing and eldercare facilities. As part of Site Plan Review for multiplex housing, Sec. 19-7-2 (E), Multiplex Housing Standards, shall also apply.

**SEC. 19-6-2. RESIDENCE B DISTRICT (RB)**

**A. Purpose**

The Residence B District is differentiated from the Residence A District in that subdivisions and multiplex housing in Residence B are required to be laid out according to the principles of open space zoning, as described in Sec. 19-7-2, Open Space Zoning. The Residence B District includes lands outside of the built-up parts of Town where the Comprehensive Plan indicates growth can and should be accommodated as a result of soils suitable for individual or common septic systems or the extension of public sewer lines. The purpose of this district is to allow a significant portion of the Town's anticipated residential growth to occur in these areas, in a manner that preserves the character of rural lands, promotes healthy neighborhoods, offers flexibility in design, and minimizes the costs of municipal services.

**B. Permitted Uses**

**2. The following residential uses:**

- a. Single family dwelling
- b. Manufactured housing on an individual lot
- c. Multiplex housing
- d. Eldercare facility, subject to the provisions of Sec. 19-7-6, Eldercare Facility Standards

**E. Standards**

2. *The following Space and Bulk Standards shall apply:*

- a. Lots that are part of residential ~~development~~ subdivisions approved by the Planning Board after June 4, 1997, shall comply with the terms of Sec. 19-7-2, Open Space Zoning, except that ~~residential development~~ subdivisions for which completed applications have been submitted to the Planning Board prior to June 4, 1997, shall be subject to the regulations in effect at the time of their submission.

MINIMUM LOT AREA	
<i>(1) Eldercare facilities</i>	5 acres
<i>(2) Wind energy systems</i>	20,000 sq. ft. (Effective October 8, 2008)
<i>(3) Other uses</i>	80,000 sq. ft.
MAXIMUM NUMBER OF DWELLING UNITS PER AREA	
<i>(1) In eldercare facilities</i>	1 unit per 3,500 sq. ft. or 1 bed per 2,500 sq. ft. of net residential area, whichever is less
<i>(2) Other uses</i>	1 unit per 80,000 sq. ft. of gross lot area
MINIMUM STREET FRONTAGE	
<i>(1) All uses</i>	125 ft.
MINIMUM SETBACKS	
<i>(1) All uses unless otherwise specified</i>	
(a) Side yard setback	30 ft.  The side yard setback may be reduced in accordance with Sec. 19-4-3.A.2, Developed Nonconforming Lots. (Effective August 11, 1999)
(b) Rear yard setback	30 ft.  The rear yard setback may be reduced in accordance with Sec. 19-4-3.A.2, Developed Nonconforming Lots. (Effective August 11, 1999)
(c) Front yard setback	The front yard setbacks set forth below may be reduced, only on roads which are not classified arterial, to the average setback of the two principal structures

	fronting on the same road in closest proximity to the site of the proposed structure, but any structure must be at least 20 feet from the right-of-way.
- Arterial street	50 ft.
- Collector, rural connector, and feeder streets	40 ft.
- Local and private streets	30 ft.
(d) Limit on parking within the front yard	A nonresidential use shall not locate its required off-street parking within the front yard setback
<b>(2) <del>Multiplex housing and Elder care facilities</del></b>	
(a) From property line	75 ft.

## SEC. 19-6-3. RESIDENCE C DISTRICT (RC)

### A. Purpose

The Residence C District includes lands that are within the built-up areas of Cape Elizabeth, are sewered or can be easily served by public sewer, are identified in the Comprehensive Plan as part of the Town's growth areas, are not presently in agricultural or woodland uses, and are not considered to be valuable, large-scale open space with valued scenery or wildlife habitat. The purpose of the district is to provide for areas of compact development that can foster cohesive neighborhoods that are close to community services.

### B. Permitted Uses

#### 2. *The following residential uses:*

- a. Single family dwelling
- b. Manufactured housing on an individual lot
- c. Manufactured housing park, subject to the provisions of Sec. 19-7-7, Manufactured Housing Parks
- d. Multiplex housing
- e. Eldercare facility, subject to the provisions of Sec. 19-7-6, Eldercare Facility Standards
- f. Rooming or boarding home

### E. Standards

#### 2. *The following Space and Bulk Standards shall apply:*

MINIMUM LOT AREA	
<i>(1) Boat repair facility for commercial purposes</i>	200,000 sq. ft. (4.6 acres)
<i>(2) Multiplex housing</i>	<del>5</del> 3 acres
<i>(3) Eldercare facilities</i>	5 acres
<i>(4) Wind energy systems</i>	20,000 sq. ft. (Effective October 8, 2008)
<i>(5) Others</i>	20,000 sq. ft.
MAXIMUM NUMBER OF DWELLING UNITS PER AREA	
<i>(1) Multiplex housing</i>	1 unit per 15,000 sq. ft. of net residential area
<i>(2) In subdivisions</i>	1 unit per 20,000 sq. ft. of net residential area
<i>(3) In subdivisions that conform to Sec. 19-7-2, Open Space Zoning</i>	1 unit per 15,000 sq. ft. of net residential area
<i>(4) A single-family home on a lot that is not part of a subdivision</i>	1 unit per 20,000 sq. ft. of gross lot area
<i>(5) In eldercare facilities</i>	1 unit per 2,500 sq. ft. or 1 bed per 2,100 sq. ft. of net residential area (Effective May 9, 2007)
<i>(6) Rooming or boarding home</i>	1 bed per 5,000 sq. ft. of gross lot area
<i>(7) Other housing</i>	1 unit per 20,000 sq. ft. of gross lot area
MAXIMUM NUMBER OF BED AND BREAKFAST ROOMS	
<i>Bed and Breakfast Guest Room</i>	1 room per 5,000 sq. ft. of gross lot area
MINIMUM STREET FRONTAGE	
<i>(1) Bed and Breakfast</i>	100 ft. on Shore Road or Route 77
<i>(2) All uses</i>	100 ft.
MINIMUM SETBACKS	
<i>(1) All uses unless otherwise specified</i>	
<i>(a) Side yard setback</i>	20 ft.  The side yard setback may be reduced

	in accordance with Sec. 19-4-3.A.2, Developed Nonconforming Lots. (Effective August 11, 1999)
(b) Rear yard setback	20 ft. The rear yard setback may be reduced in accordance with Sec. 19-4-3.A.2, Developed Nonconforming Lots. (Effective August 11, 1999)
(c) Front yard setback	The front yard setbacks set forth below may be reduced, only on roads which are not classified arterial, to the average setback of the two principal structures fronting on the same road in closest proximity to the site of the proposed structure, but any structure must be at least 20 feet from the right- of-way.
- Arterial street	40 ft.
- Collector and rural connector streets	40 ft.
- Feeder street	30 ft.
- Local and private streets	20 ft.
<del>(2) Multiplex housing and eldercare facilities</del>

| (c) Front yard setback | 20 ft. |

**F. Site Plan Review**

The following uses and activities shall be subject to site plan review by the Planning Board, according to the terms of Article IX, Site Plan Review, prior to issuance of any building permit, plumbing permit, or other permit:

1. Multiplex housing and eldercare facilities. As part of Site Plan Review for multiplex housing, Sec. 19-7-2 (E), Multiplex Housing Standards, shall also apply.

## SEC. 19-6-9. RESOURCE PROTECTION DISTRICTS

(RP1-CW, RP1-CW Buffer Overlay, RP2-WP, and RP3-F)

### D. Prohibited Uses

Uses shown as prohibited uses on Table 19-6-9 and any other use not specifically listed as a permitted use or a use permitted with a resource protection permit shall be prohibited in the RP1-CW, RP1-CW Buffer Overlay, RP2-WP, and RP3-F Districts.

36. <del>Multi-unit residential</del> <u>Multiplex Housing or Multifamily dwelling unit</u>	No	RPP	No

## SEC. 19-7-2. OPEN SPACE ZONING

### A. Applicability

#### 1. Residence B District

The provisions of this section shall be mandatory for residential subdivisions and multiplex housing in the Residence B District.

#### 2. Other Districts

In the Residence A District and Residence C District, the provisions of this section shall be optional. In such districts, notwithstanding other provisions of this Ordinance, the Planning Board in reviewing and approving proposed residential ~~developments~~ subdivisions may modify provisions relating to space and bulk, including but not limited to ~~changing~~ increasing setbacks, to permit innovative approaches to housing and environmental design in accordance with the standards of this ~~section~~ Article. Such modifications of Space and Bulk Standards shall not be construed as granting variances to relieve hardship. (Revised effective December 10, 2003)

### C. Dimensional Standards

The average size of the individual lots shall be smaller than that required in the district in which the cluster development is located and the balance of the required area shall be reserved as open space. The lots and open space shall conform to the following Space and Bulk Standards:

### 1. *Density*

The overall density of the ~~residential development subdivision~~ shall not exceed the density requirements of the district in which it is located as shown in the chart below. In the event that a ~~residential development subdivision~~ is located in more than one zoning district, the overall density of the ~~development subdivision~~ shall not exceed the combination of the density requirements of the districts in which the ~~development subdivision~~ is located. For example, if a subdivision has 660,000 square feet of net residential area in the RA District and 150,000 square feet in the RC District (with public sewerage) then the overall density shall not exceed 20 units. *(Effective February 12, 2003)*

District	Maximum Density of Residential Development	
	Single Family	Multiplex
RA	1 unit per 66,000 sq. ft. of net residential area	1 unit per 66,000 sq. ft. of net residential area
RB	1 unit per 60,000 sq. ft. of net residential area with on-site sewerage disposal	1 unit per 60,000 sq. ft. of net residential area with on-site sewerage disposal
	1 unit per <del>30,000</del> 20,000 sq. ft. of net residential area with public sewerage	1 unit per <del>30,000</del> 20,000 sq. ft. of net residential area with public sewerage
RC	1 unit per 15,000 sq. ft. of net residential area	1 unit per 15,000 sq. ft. of net residential area

When calculating density, a multiplex unit with not more than one (1) bedroom and not more than seven hundred fifty (750) square feet of gross area shall be counted as 0.5 unit. A multiplex unit with not more than two (2) bedrooms and not more than one thousand two hundred (1,200) square feet of gross area shall be counted as .66 unit. A multiplex unit with three (3) or more bedrooms or more than one thousand two hundred (1,200) square feet of gross area shall be counted at 1.0 unit.

### 2. *Minimum Lot Size*

Each lot within the subdivision shall contain at least the following area:

	Minimum Lot Size	
	With On-site Sewage Disposal	With Public Sewerage
RA	30,000 sq. ft. of net residential area	30,000 sq. ft. of net residential area
RB	20,000 sq. ft. of net residential area	10,000 sq. ft. of net residential area
RC	NA	7,500 sq. ft. of net residential area

### 3. *Average Lot Size*

Lots and/or dwelling units shall be laid out so that the average lot size is not more than sixty percent (60%) of the maximum density set forth in Sec. 19-7-2.C.1 above in the RA and RC Districts and not more than fifty percent (50%) of the maximum density in the RB District.

### 4. *Open Space*

At least forty percent (40%) of the gross acreage shall remain as open space outside of the lots and not otherwise assigned to individual dwelling units. In the RB District, where the development will be served by public sewer, at least forty-five percent (45%) of the gross acreage shall remain as open space outside of the lots and not otherwise assigned to individual dwelling units. At least one third of this required open space shall be land that is usable as determined by applying the criteria of the net residential area definition. [For example, if a parcel consists of one hundred twenty (120) acres, at least forty-eight (48) acres shall be kept as open space. Of this forty-eight (48) acres, at least sixteen (16) acres shall be usable applying the criteria of the net residential area definition.]

#### D. Open Space Design Standards

In addition to other standards of this Ordinance and of the Town's Subdivision Ordinance, the following ~~design~~ standards shall apply. ~~to developments under this section.~~

#### ~~1e-Land to be preserved as open space~~

The land within the residential development to be preserved as open space shall be designed in accordance with the following standards.

a. Contiguous land. To the greatest extent possible, open space shall be conserved in large, contiguous blocks. Narrow strips of open space (for example, extended strips of open space of less than fifty (50) feet in width) shall not be included in

1 the open space design unless they provide public access connectors to nearby  
2 public open space (which includes lands and/or greenbelt trails), wildlife corridors  
3 or links to neighborhoods that would benefit from use of the open space to be  
4 preserved.

5  
6 b. Connectivity. Where public open space is located in close proximity to the  
7 residential development, open space shall be laid out to concentrate land to be  
8 preserved adjacent to or near existing public open space. Access for lots/units in  
9 the development shall be provided to land to be preserved as open space.  
10 Greenbelt trail connections to existing public open space and land to be preserved  
11 shall also be provided where appropriate, in a manner that maximizes the amount  
12 of contiguous, usable area for agriculture or woodlot production, and outdoor  
13 recreation included as part of the required open space

14  
15 f. — in a manner that each house lot has direct access to the open space  
16 without having to cross another's house lot.

17  
18 ~~**i. Priorities for Location of Lots and Open Space**~~

19 c. Preservation priorities. Consistent with the standards set forth above, the land  
20 within the residential development to be preserved as open space shall be  
21 determined using the following priorities, in the order that they appear. To the  
22 extent priorities that are higher on this list are met by the proposed open space  
23 provisions in a residential development, the landowner shall have satisfied the  
24 requirements of this subsection even if the proposed open space design does not  
25 preserve lower priorities. The Planning Board shall find that individual building  
26 lots or building locations are laid out to achieve the following objectives, as  
27 applicable. Where the Planning Board finds that objectives conflict, the  
28 objectives shall be achieved in the order listed:

29  
30 ia. on soils suitable for subsurface wastewater disposal where on-site  
31 wastewater disposal is to be used

32  
33 b. Wetlands/environmentally sensitive areas/wildlife habitat. In a manner  
34 that preserves as part of the required open space environmentally sensitive  
35 areas, such as wetlands, steep slopes (as included in the computation of net  
36 residential area), flood plains, and wildlife habitat rated by the Maine  
37 Department of Inland Fisheries and Wildlife as high value, and unique  
38 natural features

39  
40 ii. Agriculture. In a manner that preserves active agricultural fields for  
41 agricultural use. The agricultural land must meet the requirements of Farm  
42 Land under M.R.S.A. Sections 1101-1121, Farmland Tax Law, but does  
43 not need to be registered under this state program.

44  
45 iii. Greenbelt and Recreation area. In a manner that preserves and promotes  
46 connectivity of the Cape Elizabeth greenbelt townwide.

1  
2 ~~ive. Scenic character. In~~ a manner that preserves visual resources identified in  
3 ~~An Assessment of the Visual Resources of Cape Elizabeth, Maine~~  
4 ~~(February 19, 1989), a copy of which is on file with the Town Clerk.~~

5  
6 ~~d. in a manner that preserves or allows the establishment of a vegetated~~  
7 ~~buffer to serve as an effective visual screen from adjacent properties~~  
8  
9

10 **-2. Permanent Common Open Space Preservation**  
11

12 The land in the residential development to be preserved as open space shall be  
13 permanently preserved and shall meet the following standards.  
14

15 a. Permanent legal protection. Deeds or any other documents necessary to  
16 permanently protect the land within the residential development to be  
17 preserved as open space shall be prepared and recorded. Documentation  
18 that reflects how the applicant intends to ensure legally that the land  
19 within the residential development to be preserved as open space will be  
20 protected shall be submitted to the Planning Board as part of the  
21 application review. In particular, the documentation shall specify the  
22 ownership structure of the open space. For example, land within the  
23 residential development to be preserved as open space (or an easement  
24 interest therein) may be dedicated or deeded to the Town of Cape  
25 Elizabeth, the land may be deeded to a residential development  
26 homeowners association, the land may be deeded to a third party  
27 conservation organization, or the land may be retained by the applicant.  
28 The documentation shall specify, at a minimum, restricted activities and  
29 vegetation preservation. Access to the open space must be made available  
30 to the homeowners of the residential development and is strongly  
31 encouraged to be made available to the public, and such access may be  
32 limited consistent with the open space priorities.  
33

34 b. Restricted activities. Activities on the open space shall be restricted to  
35 preserve the open space from future development. No principal residential,  
36 commercial or other buildings shall be constructed on the preserved open  
37 space. Structures related to the preservation priorities in Sec. 19-7-2 (D)  
38 (2) may be allowed. For example, open space preserved as a (i)  
39 wetlands/environmentally sensitive areas/wildlife habitat priority may  
40 include viewing platforms, nature observation shelters, or boardwalk and  
41 bridge structures; (ii) agriculture priority may include a barn or shed  
42 structure; (iii) greenbelt and recreation area may include boardwalk and  
43 bridge structures; and (iv) scenic character areas may include an overlook.  
44 The open space must be dedicated to the recreational amenity and  
45 environmental enhancement of the development, must protect natural

resources, and must be recorded as such. For the purpose of these provisions, open space means an area that:

Existing vegetation shall be preserved, but vegetation management related to the preservation priorities may be allowed. For example, open space preserved as a (i) wetlands/environmentally sensitive areas/wildlife habitat priority may include limited clearing and vegetation trimming to install and maintain greenbelt trails; (ii) agriculture priority may include tilling of fields and animal grazing; (iii) greenbelt and recreation area may include construction and maintenance of athletic fields; and (iv) scenic character areas may include vegetation removal and management to create and maintain public views.

- ~~(1) is not encumbered in any way by a principal structure;~~
  - ~~(2) is not devoted to use as a roadway, road right of way, parking lot, or sidewalk;~~
  - ~~(3) is left in its natural or undisturbed state, except for cutting of trails for walking or jogging, or is landscaped for ballfields, play fields, picnic areas, or similar activities, unless the land will be managed for forestry or used for agriculture;~~
  - ~~(4) is capable of being used and enjoyed for the purpose of informal and unstructured recreation and relaxation; and~~
  - ~~(5) is legally and practicably accessible to all residents of lots in the cluster development out of which the open space is taken.~~
- ~~b. The common open space shall be controlled by one (1) or more of the following methods:~~
- ~~(1) dedication to the Town as public open space subject to acceptance by the Town;~~
  - ~~(2) common ownership by the owners of the units within the project with a conservation easement granted to the Town, subject to acceptance by the Town, or recognized conservation organization;~~
  - ~~(3) common ownership by the owners of units within the project;~~
  - ~~(4) transfer, with permanent restrictions, to a land trust or other recognized conservation organization; and/or~~

(5) ~~ownership by a private party for agricultural or other natural resource use provided that permanent restrictions are in place to provide for its continued use for this purpose.~~

c. Maintenance. ~~If the land in the residential development to be preserved as open space is not deeded to the Town of Cape Elizabeth, documentation shall be submitted identifying the party responsible for maintaining the open space and describing the methods to be employed to maintain the open space. Any subdivision proposed under this section shall specify the ownership, use, management, and person responsible for maintenance of all common areas and facilities. The Planning Board shall approve the arrangements for the ownership, control, and maintenance of the common open space in accordance with the standards of subsections a. and b. above as part of the approval of a final subdivision plan. No changes in the use or management of common open space not owned by the Town shall be made without Planning Board approval and a note shall be provided on the approved subdivision plan to this effect.~~

d. ~~Any common open space or facility not retained by a private owner shall be maintained by a developer or homeowners' association unless and until it is transferred in its entirety to the Town or a recognized conservation organization, and until the transfer actually is completed. The formation and incorporation by the developer of a homeowners' association, if one is proposed, shall be accomplished prior to final subdivision approval. Covenants for mandatory membership in the association shall be approved by the Planning Board and included in the deed restrictions for each lot or unit. The association's documents shall specify that:~~

(1) ~~The association shall have the responsibility of maintaining the common open space and other private facilities dedicated to the use in common by the development's residents;~~

(2) ~~The association shall levy annual charges against all property owners to defray the expenses, if any, connected with maintenance of the common open spaces and facilities; and~~

(3) ~~The developer shall maintain control of common open spaces and facilities and be responsible for their maintenance until at least fifty-one percent (51%) of the development's lots or units have been completed and sold, with evidence of such completion and sales submitted to and approved by the Planning Board.~~

#### E. ~~Multiplex Housing Standards~~

Multiplex housing in the RA, RB and RC Districts must comply with the following provisions.

1. Open Space

At least forty-five percent (45%) of the gross acreage shall remain as open space outside of the building footprint(s), parking areas and other developed areas (excluding open space improvements), and any areas assigned to individual dwelling units. At least one third of this required open space shall be land that is usable as determined by applying the criteria of the net residential area definition.

2. Building Size

The maximum building footprint shall not exceed 7,500 sq. ft. The maximum height shall be limited to thirty-five (35) feet.

3. Public Water and Sewer

The multiplex housing must be served by public water and public sewerage. Where the most reasonable public sewer connection will require public sewer construction of more than one-quarter (1/4) mile from the existing public sewer to the development property line, or where the development density is less than 20 multiplex units, the development may increase the base density by fifteen percent (15%).

4. Site Design Standards

a. Open Space. Open space shall be designed in accordance with Sec. 19-7-2 (D), Open Space Design Standards.

b. Building location. The building, parking areas and related development structures shall be located on the portion of the site most suited to development. The first impression of a building is from the side that faces the street. When the building is located within one-hundred feet (100') of a public right-of-way, the building shall be oriented toward the public right-of-way. Vehicular and pedestrian connections to the public right-of-way shall be incorporated into the site design.

c. Landscaping. Areas of significant existing vegetation that shall be preserved shall be shown on the site plan. The plan shall include a preservation plan for that landscaping during construction. Where suitable existing vegetation is not present or will not be preserved and where any part of the building is located within one hundred feet (100') of a public right-of-way, the area between the building and the public right-of-way shall be landscaped. The landscape plan shall create a transition from the public right-of-way to the building and serve to enhance the perspective of the building.

General site landscaping shall include transition areas from the building to parking areas and include a buffer between the developed portions of the site and abutting properties.

- d. Parking Areas. Parking shall be provided in accordance with Sec. 19-7-8, Off-Street Parking. Parking lots shall be landscaped to soften the perception of an expanse of hard surface. Landscaped islands may be required in parking lots exceeding 20 spaces.

## 5. Architectural Standards

The multiplex building(s) must be designed to be compatible with the character of Cape Elizabeth, which ranges from compact neighborhoods to undeveloped open space, and from agricultural fields to limited commercial areas. Compatibility shall be determined using the following standards.

- a. Massing. The perception of a building is influenced by its size, but more importantly by how the overall size is distributed throughout the building. Determination of compatibility shall be based on the degree of articulation on building surfaces, the magnitude of unbroken faces of a structure, the impact of the building mass upon view sheds and the integration of mechanical equipment within the structure.

NOTE: The following pictures are placeholders for illustrated drawings under development that will be added to these standards.

- b. Roof. The height of a building and the type of roof design significantly influence the scale of a building. Roofs shall generally be of a gable or other sloping roof design. Roofs shall have a minimum pitch of 7:12. Roof lines shall be integrated into the facade and structure of the building and use of any kind of a parapet to simulate a roof line shall be prohibited.

c. Entrance and windows. The relationship between doors and windows to exterior wall space of a building creates a rhythm or pattern. Doors and windows shall be consistent with the style of the building. The building shall have a distinctive front entrance. The front entrance shall be prominently located and articulated on the facade of the building. Individual outside entrances may be permitted. Windows shall be generously incorporated into the design, both in number and size.

d. Exterior Materials. Color boards, which include a representation of the building color palette, and exterior material samples shall be provided by the applicant. Facade materials give a structure character. Exterior materials shall be compatible with the design of the structure. Exterior materials shall be of high quality and durable. The use of wood shingles,

wood clapboards, brick and stone is permitted. The Board may approve high quality manufactured materials, for example concrete clapboards or siding, such as hardiplank, that mirrors the appearance of natural materials, however no other use of concrete block, sheet metal, vinyl or aluminum siding is permitted.

#### 6. Density Bonus for additional Public Benefit

In order to create an incentive for property owners to incorporate additional community goals into private development, density bonuses may be incorporated into multiplex housing development. When any combination of the density bonuses in paragraph b below are included in a development, the dimensional standards in paragraph a below shall apply to the development, notwithstanding the dimensional standards of the zoning district.

a. Dimensional standards. When a multiplex development will include a density bonus, the following dimensional standards shall replace dimensional standards that otherwise would be applicable.

Maximum building footprint	10,000 sq. ft.
Maximum height limit	50 feet
Side yard setback for buildings exceeding 35' in building height	Building height plus ten (10) feet.
Rear yard setback for buildings exceeding 35' in building height	Building height plus ten (10) feet

b. Density Bonus. The total density bonus allowed, including subsection 19-7-2 (E)(3) above, shall not exceed thirty percent (30%) of the density

otherwise allowed. Any combination of the following density bonuses may be proposed.

- i. Agricultural land. When agricultural land is permanently preserved in compliance with Sec. 19-7-2 (D), Open Space Design Standards, a density bonus of one (1) unit per thirty-thousand (30,000) square feet of agricultural land preserved may be applied to the development. The agricultural land may be located on the development parcel or anywhere in the Town and must meet the requirements of Farm Land under M.R.S.A Sections 1101-1121, Farmland Tax Law, but does not need to be registered under this state program.
- ii. Open Space. When more than forty-five percent (45%) of the gross acreage of the development parcel shall remain as open space outside of the building footprint(s), parking areas and other developed areas (excluding open space improvements), and any areas assigned to individual dwelling units, a density bonus of one (1) unit per forty-thousand (40,000) square feet of preserved open space above forty-five percent (45%) may be applied to the development. The open space must be permanently preserved in compliance with Sec. 19-7-2 (d), Open Space Design Standards, be located on the development parcel and include reasonable public access.
- iii. Affordable Housing. When affordable housing is provided in excess of the minimum required in compliance with the 19-7-4, Mandatory Affordable Housing Provisions, the density bonus shall be subject to the dimensional standards in subsection 6, Public Benefit Density Bonuses.

## SEC. 19-7-3. TRANSFER OF DEVELOPMENT RIGHTS

### A. Applicability

The Planning Board may approve residential developments in the Residence A District that exceed the density standards of Sec. 19-6-1.E, Standards, due to the transfer of development rights, provided that the development conforms to all of the following criteria:

1. The development is consistent with the comprehensive plan;
2. The development conforms to the requirements set forth in Sec. 19-7-3.B, Standards;

3. The parcel proposed for development is not designated as a ~~TDR sending transfer zone on the Transfer of Development Rights map under the provisions of Sec. 19-7-3.C, Transfer Zone;~~
4. Development rights equal to the increase in density will be transferred from a lot or lots within the Transfer Zone through conservation easements on land meeting the requirements of Sec. 19-7-3.D, Easement Reservation, that have been approved by the Planning Board ~~and have received preliminary approval by the Town Council.~~
5. The proposed development will be a clustered development in accordance with Sec. 19-7-2, Open Space Zoning.

#### B. Standards

The Planning Board may approve residential developments utilizing transferred development rights that conform with the following requirements provided that the applicant has transferred the appropriate number of development rights to support the increased density from land located within a transfer zone in accordance with Sec. 19-7-3.D., Easement Reservation.

MINIMUM <del>RECEIVING</del> LOT AREA	
(1) <del>All residential uses involving transfers of development rights</del>	<del>510</del> acres
MAXIMUM DENSITY OF A <del>RESIDENTIAL DEVELOPMENTS</del> SUBDIVISION UTILIZING TRANSFER OF DEVELOPMENT RIGHTS	
(1) <i>Developments in the RA District connected to the public sewerage system</i>	1 <del>lot</del> /unit per 20,000 sq. ft. of net residential area
(2) <i>Developments in the RA District served by on-site sewage disposal when the development rights are transferred from an abutting parcel</i>	1 <del>lot</del> /unit per 40,000 sq. ft. of net residential area
(3) <i>Developments in the RA District served by on-site sewage disposal when the development rights are transferred from a parcel in the same ownership as the development parcel</i>	1 <del>lot</del> /unit per 40,000 sq. ft. of net residential area
(4) <i>Developments in the RA District served by on-site sewage disposal when the development rights are transferred from a parcel located within two thousand feet of the perimeter of the development parcel</i>	1 <del>lot</del> /unit per 50,000 sq. ft. of net residential area
(5) <i>Developments in the RA District served by on-site sewage disposal when the development rights are</i>	1 <del>lot</del> /unit per 60,000 sq. ft. of net residential area

transferred from a parcel located more than two thousand feet from the perimeter of the development parcel	
--	--

### C. TDR Sending Transfer Zone

Development rights may be transferred from any parcel designated as a TDR sending zone on the official Transfer of Development Rights map~~located within a transfer zone.~~ The ~~transfer zones shall be shown on the Transfer Zone Transfer of Development Rights (TDR) Map~~ which shall be part of the Ordinance. The Map shall designate parcels or tracts of land within the RA District that are appropriate for conservation by reason of one or more of the following attributes:

1. The land is used for agricultural purposes
2. The land is identified as having greenbelt and/or recreation area value in the most recent town Greenbelt Plan~~in the visual analysis as being of scenic value~~
3. The land is identified as having significant wildlife habitat value~~has identified historic or archaeological significance~~
4. The land is has significant scenic, cultural and/or unique properties identified by the Town Council using a public process~~used for forestry purposes and is within two hundred fifty (250) feet of public road.~~

### D. Easement Reservation

The Planning Board may approve a development that exceeds the base density only if the applicant provides a conservation easement(s) on land located within a TDR sending zone as depicted on the Transfer of Development Rights (TDR) map~~transfer zone~~. For each unit in the proposed development in excess of that allowed by the base RA density, a conservation easement shall be provided on at least sixty-four thousand (64,000) square feet of net residential area within a designated TDR sending~~transfer~~ zone, except as provided in subsection F, Agricultural Transfer of Development Bonus. The conservation easement(s) shall be perpetual subject to the terms of Sec. 19-7-3.E, Easement Provisions.

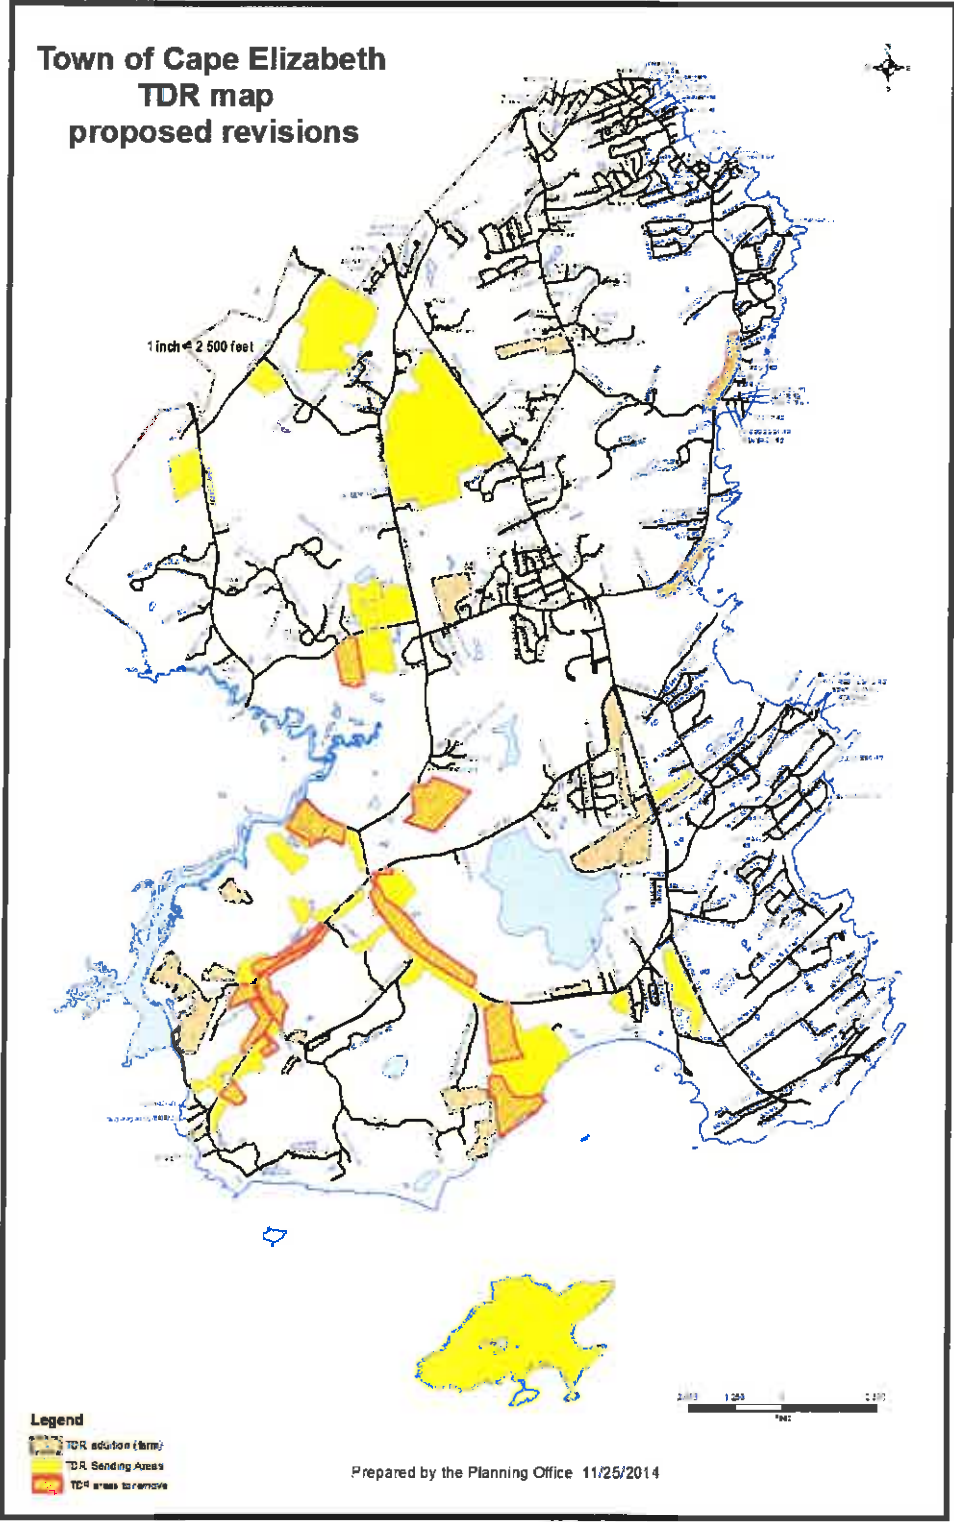

### E. Easement Provisions

The form and conditions of each easement shall be determined by the Planning Board, and approved by the Town Council. The easement shall be recorded in the Cumberland County Registry of Deeds within ninety (90) days of the vote of approval of the development by the Planning Board and a copy provided to the Town Planner.

### F. Agricultural Transfer of Development Bonus

Land that has been designated a TDR sending area because it is used for agricultural purposes may transfer up to 33% more development rights than the density allowed on

1 the agricultural land. For each 1.34 development right transferred, a conservation  
2 easement shall be provided on at least sixty-four thousand (64,000) square feet of net  
3 residential area within a designated TDR sending zone. The conservation easement(s)  
4 shall be perpetual subject to the terms of Sec. 19-7-3.E, Easement Provisions.  
5

**SEC. 19-7-8. OFF-STREET PARKING (Revised effective May 12, 2002)**

**a. Residential**

- |     |                          |  |
|-----|--------------------------|--|
| (1) | Single Family Dwellings, | 2 spaces per dwelling unit including manufactured housing  |
| (2) | Two-Family Dwellings     | 2 spaces per dwelling unit   |
| (3) | Multiplex housing or     | 1.5 spaces per dwelling unit with multifamily dwellings one bedroom, 1.75 spaces for unit with two bedrooms, and 2 spaces per unit with three or more bedrooms |

**SEC. 19-7-11. MULTIPLE PRINCIPAL BUILDINGS ON A LOT**

If more than one (1) principal building is located on a lot, the lot size and location of each building shall be such that a separate lot conforming to the provisions of this Ordinance could be created for each building. The potential creation of a separate lot shall be demonstrated by submitting a plan to the Code Enforcement Officer showing how the land could be divided to create conforming lots.

**SEC. 19-8-3. RESOURCE PROTECTION PERFORMANCE STANDARDS**

All activities in the Resource Protection Districts shall comply with the following performance standards as applicable:

**A. Resource Protection Permit Procedures**

***1. Review***

c. The Planning Board in its review of an application may require a "peer review" by a professional engineer, a botanist or other relevant expert. The cost of all such reviews, including the cost of review by the Town Engineer, shall be taken from the application's Review Escrow Account. If a Review Escrow Account has not been established pursuant to the provisions of other ordinances governing an aspect of the applicant's proposed activity, the Planning Board shall be authorized to require an applicant for a Resource Protection permit to establish a Review Escrow Account under the terms of Sec. ~~16-2-1(c)~~ ~~16-2-4(a)(1)~~ of the Subdivision Ordinance. Any funds not disbursed from the Review Escrow

Account shall be promptly returned to the applicant upon final disposition of his or her application.

## SEC. 19-8-5. EARTH MATERIALS REMOVAL STANDARDS

### C. Permit Procedures (Amended effective February 14, 2002)

3. The Planning Board in its review of an application may require a “peer review” by a professional engineer or other relevant expert. The cost of all such review, including the cost of review by the Town Engineer, shall be taken from the application’s Review Escrow Account. If a Review Escrow Account has not been established pursuant to the provisions of other ordinances governing an aspect of the applicant’s proposed activity, the Planning Board shall be authorized to require an applicant for an earth materials permit to establish a Review Escrow Account under the terms of Sec. ~~16-2-4(a)(1)~~ 16-2-1(c) of the Subdivision Ordinance. Any funds not disbursed from the Review Escrow Account shall be promptly returned to the applicant upon final disposition of his or her application.
4. Within thirty-five (35) days following the public hearing, or such longer period as may be mutually agreeable to the Planning Board and the applicant, the Planning Board shall render its decision to approve, to approve with conditions or to disapprove in writing, specifying the reasons therefore. Notwithstanding other provisions of this Ordinance, the applicant, or any property owner entitled to notice of the public hearing, who is aggrieved by a decision of the Planning Board under this ordinance, may appeal to the Superior Court as provided by the Maine Rules of Civil Procedure.
5. The Planning Board may require the applicant furnish to the Town, before the issuance of a permit, a performance guarantee in accordance with Section ~~16-2-6(c)~~ 16-2-4(e)(7)(A) of the Subdivision Ordinance. The amount and the conditions shall be consistent with the purposes of this Ordinance and shall secure the proper performance of the alteration work. The amount shall be based upon the estimated cost of completing or correcting any work necessary to satisfy the conditions of the permit and the criteria of this Ordinance plus the estimated costs of preventing or correcting any damage to the subject or other property which the Planning Board considers probable or of sufficient gravity to justify the expected expense of such guarantee.

## SEC. 19-8-12. TOWER AND ANTENNA PERFORMANCE STANDARDS (Effective April 15, 2000)

### 2. Performance Standards

- j. Performance Guarantee. No building permit may be issued until the applicant has provided a performance guarantee to the town in accordance with Sec. ~~16-2-6(c)~~~~16-2-4(e)(7)(a)~~, Subdivision Ordinance.

## ARTICLE IX. SITE PLAN REVIEW

### SEC. 19-9-4. REVIEW PROCEDURES

#### B. Application Review Procedures

1. After an application has been submitted with the requisite fees, including establishment of a Review Escrow Account under the terms of Sec. ~~16-2-1(c)~~~~16-2-4(a)(1)~~ of the Subdivision Ordinance, and after any required Zoning Board of Appeals approval has been obtained, the Town Planner shall issue a dated receipt to the applicant.
2. Upon certification by the Planning Board that an application is complete, the Planning Board, at its discretion, may hold a public hearing. If the Planning Board determines to hold a public hearing, it shall hold the hearing within thirty-five (35) days of the date that the application is deemed complete and shall provide public notice in accordance with Sec. ~~16-2-1(b)~~~~16-2-4(a)(7)~~ of the Subdivision Ordinance.
3. The Planning Board, at its discretion, may require that a performance guarantee be established with the Town for the cost of site improvements. Each performance guarantee shall comply with Sec. ~~16-2-6(c)~~~~16-2-4(e)(5) and (7)(A)~~ of the Subdivision Ordinance. An inspection fee shall be paid in accordance with Sec. ~~16-2-6(d)~~~~16-2-6(a)~~.
